JOÃO VÍTOR FERNANDES DIAS

Computer Science Undergraduate

EDUCATION

Centro Educacional Nossa Senhora Auxiliadora – Middle and High School

02/2012 – 12/2018

I participated in talent shows, theater performances and in a robotics competition in which my team scored first place.

Instituto Federal Fluminense – Técnico em informática

03/2016 – 03/2019

I acted in a play of "Midsummer Night Dream". There I also learned to code using C, PHP, SQL, HTML and CSS. As a final Project, my team developed a Social Network for private use.

Universidade Estadual do Norte Fluminense Darcy Ribeiro – Computer Science bachelor degree

03/2019 – present

I've been developing a personal project in Python to compute the subject's demand of the whole Computer Science course in my university through the analysis of data extracted from the student's academic records.

First Cambridge Exam – English Certification

B2 English proficiency certified by First Cambridge Exam

WORK EXPERIENCE

Capes CNPq – Scientific Initiation Scholarship

10/2019 – 04/2022

I developed Scientific Initiation projects, related to Internet of Things using microcontrolled devices to control a robotic arm, throughout my 4 years there. During this period of time I used C++, JavaScript and the library React Native to program the devices and mobile apps.

Paideia – Desenvolvedor WordPress Fullstack

07/2020 – 08/2020

Together with a group of friends, I developed an [website to the company named "Paideia"](#) using WordPress and learned about SEO.

Letras – Estagiário de desenvolvimento backend

02/2022 – 07/2022

I worked using the SCRUM methodology and coded in Go, PHP and SQL.
